

Service technician for crane systems on seavessels / career changer

We are now offering a vacancy as a service technician (m,f,d) in our team.
Full-time, 40 hours per week for a long-term position.

What tasks do you expect?

- Maintenance of ship crane systems
- Completion of all assigned service, repair, warranty and inspection orders
- Worldwide operations
- Advising customers on the technical aspects of the company's products and services
- Troubleshoot and fix standard technical issues to ensure customer satisfaction.

What do we expect from you?

- Customer-oriented, independent and analytical work
- You are familiar with handling MS Office applications
- You have good written and spoken English skills (German is an advantage but not mandatory)
- Experience with heavy machinery and working with hydraulic and electrical systems
- High personal responsibility, accuracy and reliability
- Team spirit and resilience in stressful situations
- Hands-on mentality also across departments
- Problem solving ability
- Car and driver's license is an advantage, but not mandatory
- Career changer welcome for mechanics from mechanical engineering or commercial vehicle and agricultural technology

What do we offer you?

- Comprehensive training
- Attractive salary, full social security
- Christmas and holiday pay
- Job bike leasing
- Perspective of a permanent employment contract
- Personal development opportunity
- Continuing education
- The environment of an owner-managed company
- Working in a team with direct contact to management
- Corporate events

We are an international, growing company and are committed to a good working atmosphere, with a private and professional life in balance.

If you are interested, we look forward to receiving your application by post or email to Timo Lieckfeld:
